

HARINGEY LOCAL VALIDATION LIST

LOCAL REQUIREMENTS FOR INFORMATION TO BE SUBMITTED WITH PLANNING APPLICATIONS

21st July 2023

Context

The Town and Country Planning (Development Management Procedure) (England) Order 2015 requires that unless there is a list of information requirements published within the last two years of the date of submission of the application, the local planning authority cannot require information as part of its validation process.

This 'local list of validation requirements' has been prepared in accordance with National Planning Practice Guidance and paragraph 44 of the National Planning Policy Framework (NPPF).

The information below and on attached links shows what we will expect all applicants to submit.

It is recommended that planning applications are submitted electronically via the **Planning Portal**. You can pay the application fee online at the point of submitting.

July 2023

The current statutory national requirements for all applications are:

1. Standard application form (three copies plus original unless submitted electronically)
2. Location plan on an up to date map at an identified standard metric scale (typically 1:1250 or 1:2500 to fit onto A4 or A3 paper) with the red line including all land necessary to carry out the proposed development and blue line for any other land owned by the applicant
3. Site plan – direction of North, proposed development in relation to the site boundaries with written dimensions (and public rights of way, trees, hard surfacing and boundary treatment where relevant) typically 1:500 or 1:200
4. Ownership certificate and notices
5. Agricultural land declaration
6. Fee
7. Design and access statement - where required by law in accordance with the Town and Country Planning (General Development Procedure) Order (England) 2015) and The Planning (Listed Buildings and Conservation Areas) Regulations 1990 (as amended)

As defined by Article 9 of the Town and Country Planning (Development Management Procedure) Order 2015, Design and Access Statements are required for the following planning applications:

- Major developments (those which involve the creation of 10 or more residential units; residential development of on a site of 0.5 hectares or more; development on a site of at least 1 hectare; or the provision of a building or buildings where the floor space to be created by the development is 1,000 square metres or more;).
- Proposals where any part of the development is in a Conservation Area and consists of—
 - the provision of one or more dwellinghouses; or
 - the provision of a building or buildings where the floor space created by the development is 100 square metres or more.

A design and access statement shall—

(a) explain the design principles and concepts that have been applied to the development;

- (b) demonstrate the steps taken to consider the context of the development and how the design of the development takes that context into account;
- (c) explain the policy adopted as to access, and how policies relating to access in relevant local development documents have been taken into account;
- (d) state what, if any, consultation has been undertaken on issues relating to access to the development and what account has been taken of the outcome of any such consultation; and
- (e) explain how any specific issues which might affect access to the development have been addressed

Further guidance can be found at <https://www.gov.uk/guidance/making-an-application#Design-and-Access-Statement>
Design and Access statements are also required with all applications for Listed Building Consent.

CIL

All developments generating a floorspace of more than 100 square metres or an additional residential unit are CIL liable and will be obliged to submit a 'determining whether a development is CIL liable' form and plan or drawing showing any chargeable development and gross internal area in square metres on each plan.

The following table sets out our local information requirements. Information requested with a particular planning application will be considered in relation to the statutory tests that the information is reasonable having regard to the nature and scale of the proposed development and is about a matter which it is reasonable to think will be a material consideration in the determination of the application (set out in Article 34 (3) (c) of the DMPO 2015)

Please note that Haringey requires all applications to have a scale bar and all proposed plans/elevations require one significant dimension. This is to ensure that the Planning Officer can accurately measure dimensions using measuring software. All drawings must be labelled with a drawing number and note of any revisions.

Validation dispute Local planning authorities should only request supporting information that is reasonable in regard to the nature and scale of the proposal and material to the application in question. If you do not consider a local information requirement to be needed as part of your application you must send the Council a notice setting out the reasons why you consider the information requested does not meet the statutory tests (known as an Article 12 notice) or “Request for Waiver of Planning Application Requirement” form listing the items and explaining the reasons why you do not think the information is needed, setting out a reason for each requirement.

We will consider the notice and must issue a validation notice stating that it no longer requires the information or a non validation notice stating that it still requires the information requested.

Right of appeal

After receiving a non validation notice and after the relevant time period has passed (either 8 or 13 weeks) an applicant may appeal to the Planning Inspectorate against the non determination of the application. If In considering such an appeal the inspector will consider both the dispute regarding invalidity and the merits of the application itself.

| Information Item | Types of Application that require this information | Geographic Location where this information is required | Policy Driver | What information is required and where to look for further advice |
|--|--|--|-----------------------------------|---|
| <p>Existing and proposed plans: All plans to have a scale bar and one significant dimension. All drawings must be labelled with a drawing number and note of any revisions.</p> <p>Existing and proposed plans must be set out on the same drawing to enable comparison.</p> | All applications | All | London Plan Local Plan (DMDPD) | <p>Block Plan: drawn to at least 1:500 scale showing properties either side and to rear of site with North point.</p> <p>Floor plans of each floor: drawn to 1:100 or 1:50: including the outline of the neighbouring property at the same floor level or 5m beyond boundary (whichever is least) on each side.</p> <p>Elevations: drawn to 1:100 or 1:50. for principal street elevations, showing the neighbouring two properties to each side or 10m (whichever is least), to all other elevations the immediate neighbouring property or 5m (whichever is least)</p> <p>Sections: showing finished floor and ground levels</p> <p>Outline applications: plans showing upper and lower limits of for height, width and length of each building</p> |

| Information Item | Types of Application that require this information | Geographic Location where this information is required | Policy Driver | What information is required and where to look for further advice |
|--|--|--|--|---|
| CIL liability form | All developments adding more than 100 sqm (GIA) of new development and/or proposing 1 or more new dwelling(s) (even if the floorspace of the new dwelling is under 100sqm) | All | London Plan Local Plan | CIL Regulations Please note: all floor space measurements should be Gross Internal Area (GIA) |
| Site photographs with affidavit confirming they have been taken within 21 days of the application submission | All | All | Local Plan DMDPD | Policy DM1 |
| Information required for the Planning London Datahub as set out on the Planning Portal 1APP form | All applications | All | The Town and Country Planning (Mayor of London) Order 2008 | If you have any questions, please contact: GLA Planning Data Team at planningdata@London.gov.uk |
| Design Charter Response (to be included in a Design and Access Statement) | All proposals requiring a Design and Access Statement | All | Local Plan DMDPD | Brief description setting out response to Policy DM1 requirements normally as part of the Design & Access Statement. |

| Information Item | Types of Application that require this information | Geographic Location where this information is required | Policy Driver | What information is required and where to look for further advice |
|--|---|--|--|---|
| Accessibility statement (to be included in a Design and Access Statement) Demonstrating compliance with Part M4.2 of Building Regulations 2015 | All applications that involve the creation of any new residential units, including changes of use and conversions. | All | London Plan Policy Haringey Local Plan SP2 | Submit a statement that explains how your proposals complies with Part M4.2 of Building Regulations 2015. You can find out more information about the requirements at https://www.gov.uk/government/publications/access-to-and-use-of-buildings-approved-document-m |
| Independent fire strategy produced by a third party suitably qualified assessor | All major applications | All | London Plan | See Policy D11 of the London Plan. |
| Gateway 1 Fire Statement Form | The provision of a relevant building Development of an existing relevant building Development within the curtilage of a relevant building Relevant buildings: Contain two or more | All | Building a safer future: proposals for reform of the building safety regulatory system | Further details are available here: https://www.gov.uk/guidance/building-safetyplanning-gateway-one The template form can be found at: https://www.gov.uk/guidance/building-safetyplanning-gateway-one#annex-c-draft-firestatement-form |
