## Works Notice

### Proposed Road Safety Improvements on Cranley Gardens, N10

Dear Resident or Business,

I would like to thank all who participated in the original public and statutory consultation exercise conducted from 14 December 2022 until 18 January 2023, on proposals to introduce sinusoidal speed humps along Cranley Gardens, in order to reduce vehicular speeds and improve road safety.

We considered all feedback received during the consultation period and the Council has decided to proceed with the implementation of the proposed speed reducing measures on Cranley Gardens, as detailed on the plan overleaf.

A copy of the schemes Delegated Authority Report which details the objections received and the Council's response is available via link: [haringey.gov.uk/cabinet-agenda-Cranley-gardens](https://www.haringey.gov.uk/cabinet-agenda-Cranley-gardens)

The above works are planned to start week commencing 12 February 2024, and should take approximately one week to complete, weather permitting.

I would like to take this opportunity to apologise in advance for any inconvenience that may be caused *while the works are in progress*. The works will be carried out under temporary road closures - spread over three stages so as to minimise disruption to local residents.

Yours faithfully,

Highways Engineering
